

Vision: Foster proactive and collaborative approach amongst stakeholders in energy development while protecting the environment.

Mission: To facilitate communication and cooperation amongst petroleum industry partners, regulators and community members regarding energy development in the area.

Open House

Tuesday June 13 2017

From 6-9 pm

Wembley Rec Centre

Complementary dinner will start at 6:45 pm

Speakers include:

Dr Donald Davies, Ph.D., DABT

- Recognized authority in toxicology, health risk assessment and health risk communication.
- Over 35 years studying the affects of chemicals on living systems.
- Highly versed on the toxicity of chemicals used in oil and gas development and their affects on the health of humans, livestock and other ecological receptors.

Jill Mason

- Alberta Surface rights Board
- Learn how to protect and advocate for your rights in dealing with development on your land

Everyone is welcome! Come out and see how you can be a part of responsible industrial development in the Wapiti area.
